(Refer to limits on clinical and co-curricular credits)

Please describe the type of Internship you are seeking (i.e., government, legislative, policy-making, non-profit):

______________________________________________________________________________

______________________________________________________________________________

______________________________________________________________________________

______________________________________________________________________________

Students should be aware that many agencies and offices have disclosure requirements or conduct background checks of students before final approval of a student’s Internship in the office. If you are offered an Internship conditioned on satisfactory completion of a background check, you should begin that process as promptly as possible in order to avoid a delayed start in your position.
